Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Objections

2. Claims 4-12 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Allowable Subject Matter

3. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. neither Bernkopf, U.S.P. No. 5,353,133 or any of the other references of record teaches or suggests the light absorption structure which absorbs not less than 60% of incident light, as is stated in claim 3.

4. In claim 1, line 5, the word 'bing' appears to misspelled and should be "being".

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2883

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Bernkopf, U.S.P. No. 5,353,133.

7. Bernkopf 133' teaches (Figs.1-29) a projection/ display apparatus comprising; a pair of oppositely disposed substrates 70,30 at least one of which is transparent , a scattering layer 40 disposed on at least one of the substrates 40, a liquid crystal display layer 42 disposed between the pairs of substrates which can be switched between a transmission state and light interruption state, a reflection surface 63,61 provided on the surface of the second substrate and a light absorption structure 61 between adjacent pixels for absorbing incident light, which clearly, fully meets Applicant's claimed limitations.

8. A copy of PTO-1449 will be included in this office action.

9. The following references are also cited by the Examiner as being pertinent and/or related art: Takahara et. al., U.S.P. No. 6,005,651 (Figs.1-20), Stephenson et. al., U.S. Patent Application Publication No. U.S. 2005/0225703A1 (Figs.1-11) and Huh et. al., U.S.P. No. 6,236,799 (Figs.1-15).
